

Give more deals the green light

Augment traditional financing with a new source of flexible funding that lets your traders seize more opportunities

A new world of opportunities

Buoyant commodity markets are rife with opportunities. But rising prices consume more cash resources. And banks—the traditional source of liquidity—are increasingly constrained, narrowing funding options just when you need more liquidity.

That's where TradeBridge comes in. We provide a new source of flexible funding that augments your traditional funding lines. That gives you the optionality you need to help your traders secure more deals with better margins.

Let your trade flow

In trade, opportunities are fleeting. We provide financing at the business level by using real-time market and trading data, freeing your trade team to focus on securing these rapidly moving opportunities. Our funding is specifically designed for you to:

- ✓ Act in hours, not days or weeks
- ✓ Finance any purchase from raw materials to logistics
- ✓ Conduct business anywhere in the world
- ✓ Only pay for what you use, when you use it

A new finance model

Say goodbye to traditional, constrained financing based on single deals. Say hello to payables finance based on the true strengths of your business.

- ✓ Fund invoices for any purchases classified as cost of goods sold (COGS)
- ✓ Pay on day one in any jurisdiction, in any currency
- ✓ No commitment or non-utilisation fees, just draw what you need and only pay for what you use
- ✓ Fully automated supplier onboarding and financing using the TradeBridge platform

"The facility provided by TradeBridge offered us the flexibility to rapidly grow business, enabling us to pivot quickly to the needs of our multinational clients, therefore broadening and deepening existing relationships".

Czarnikow Group Limited

More than a 'button click'

Financing your business is too important to trust to an online application and 'chatbot'.

At TradeBridge you'll be collaborating with real people whose only goal is to understand the levels and types of financing that will work best for your business.
